

# DC Vehicle to iPad Direct Connect Installation Guide

Manual Version 1.0 | Revised 09/11/24

## Included Parts

Ethernet cables not included.

**DC PoE Injector  
(Power over Ethernet)**

**Ethernet Adapter**

**Micro USB to  
Lightning Cable**

## Instructions

Follow the steps below and refer to the diagram on page 2:

- 1** Power off the CloudBox.
- 2** Connect an ethernet cable between the CloudBox and the IN port on the PoE injector. (For CloudBox 2, connect the ethernet cable to Ethernet Port 2)
- 3** Connect another ethernet cable between the OUT port on the PoE injector and the ethernet adapter.
- 4** Connect the VIN+ to 12VDC+ and connect the VIN- to ground (DC-).
- 5** Power on the CloudBox and PoE injector.
- 6** Connect the iPad to the ethernet adapter using the micro USB to lightning cable.
